## INTRODUCTION

**The EU Promotion Policy helps EU agri-food sector's professionals to finance information and promotion campaigns.** Based on a strategy established at European level, and under the slogan 'Enjoy, it's from Europe', the policy aims to help the sector's professionals break into international markets and make consumers more aware of the efforts made by European farmers to provide quality products.

## WHO CAN PARTICIPATE?

1. **Trade and inter-trade organisations** representative of the sector;
2. **Producers' organisations and their associations** recognised by the Member State.
3. **Producers' groups within the meaning of Art. 3 of Reg. 1151/2012 on quality schemes.**
4. **Agri-food bodies** with a mission of public interest in charge of promotion of agricultural products.

## WHAT IS A PROMOTION PROGRAMME?

A promotion programme is a coherent set of operations which can include advertising campaigns in the press, on television, on radio or on the Internet; point-of-sale promotions; public relations campaigns; participation in exhibitions and fairs, and a range of other activities. It can be a B2B campaign or B2C campaign.

It shall be implemented over a period of **at least one year but no more than three years**.

Information and promotion programmes may consist of “simple” programmes or “multi” programmes:

A **simple programme** is a promotion programme submitted by one or more proposing organisations from the same MS. It should be implemented in at least two MS or in only one MS if different from the MS of origin of the proposing organisation(s).

A **multi programme** is a programme submitted by at least two proposing organisations from at least two Member States or one or more European organisations.

**SIMPLE PROGRAMME**  
**EXCEPTION FOR QUALITY SCHEMES:**  
*it's also possible to choose to implement the campaign in the MS of origin of the proposing organisation without needing to include a second country.*

## WHAT ARE THE OBJECTIVES OF PROMOTION POLICY?

The information provision and promotion measures aim to **enhance the competitiveness of the Union agricultural sector** by:

- a) Increasing **awareness of the merits of Union agricultural products** and high standards of production;
- b) **Increasing the competitiveness and consumption of Union agricultural products** both inside and outside the Union;
- c) Increasing the **awareness and recognition of Union quality schemes**;
- d) **Increasing the market share of Union agricultural products**, specifically focusing on those markets in third countries that have the highest growth potential;
- e) **Restoring normal market conditions** in the event of serious market disturbance.

## NEW PROMOTION POLICY: WHAT ARE THE MAIN CHANGES?

On 1 December 2015, the revised policy started to apply. It presents a wider scope of measures and an increased budget and it will be implemented in the internal market and in third countries.

The new regulation provides for a **gradual increase in the resources** available to 61 million planned for 2014 to 200 million in 2020.

Under the new rules, national co-funding disappears, but the **EU co-financing rates have been raised to 70% for simple programmes** presented by an organisation from one Member State, to **80% for multi Member State programmes and programmes targeting third countries**, 85% for crisis measures.

Moreover, the new regulation defines **the promotion of quality systems as a key priority** in order to improve the knowledge of consumers about the characteristics of such products. In this regard, the **opportunity to mention the origin** of the products in the promotion campaigns has been introduced for the first time.

Another important element is the **inclusion of producer organizations as beneficiaries** of the promotion policy.

## THE LEGAL FRAMEWORK

The rules concerning the promotion aid scheme are in 4 different legislative texts (basic act, delegated act, implementing act and annual work programme).

Below **all the legislative text** are listed.

### BASIC REGULATION

[Regulation \(EU\) No 1144/2014](#) on information provision and promotion measures concerning agricultural products implemented in the internal market and in third countries

### DELEGATED AND IMPLEMENTING ACTS

[Commission Delegated Regulation \(EU\) No 1829/2015](#)

[Commission Implementing Regulation \(EU\) No 1831/2015](#)

### ANNUAL WORK PROGRAMME

UPDATED

[Commission Implementing Decision of 14.11.2023](#) on the adoption of the work programme for **2024** in the framework of information provision and promotion measures concerning agricultural products implemented in the internal market and in third countries.

#### Annexes:

1. **Annex 1: establishes the programme's priorities;**
2. **Annex 2 and 3: specify criteria** for the proposal to be submitted (eligibility, exclusion, selection, and award criteria).

The **annual work programme** has been introduced in the reform to take into account market opportunities and changing priorities. It adapts each year the basic framework to the needs of sector. Defined with the involvement of the stakeholders and Member States, the annual work programme:

- Sets out the priorities, including the allocation of resources;
- Defines the eligibility, exclusion, selection and award criteria to be applied.

**The annual work programme for 2024** was adopted on 14 November 2023. A total of **€ 185.9 million** will be available, **split between promotion in the EU internal market (€81.3 million) and in third countries (€85.1 million).**

2024 campaigns are expected to feature products from **sustainable farming practices**, that contribute to reducing dependency on pesticides and antimicrobials, minimising fertilisation and water pollution, reducing greenhouse gas emissions, enhancing organic farming and improving animal welfare. **€62 million will be specifically allocated to such sustainably produced agri-food products, including €42 million for organic products.** One of the expected results is to further increase the recognition of the EU organic logo and the consumption of organic products, in line with the EU action plan for organic production.

Another objective **is to increase the awareness of EU's quality schemes** and products registered as PDO, PGI and TSG.

In the 2024 work programme, more than €18 million will be earmarked for the promotion of fresh fruit and vegetables, whose consumption in the context of balanced diets also remains a cornerstone of the EU's promotion policy.

In general, **promotion activities aimed at consumers on the internal market should refer to and be in line with dietary guidelines of the targeted Member State(s).**

As regards **campaigns in countries outside the EU**, it includes programmes targeting countries with high growth potential such as China, Japan, South Korea, Singapore, North America. The United Kingdom remains one of the main export markets for EU agri-food products, absorbing more than 20% of EU27 exports.

**The work programme 2024** establishes the following **priorities** for simple and multi programmes (see figure 2 for budget allocation for each priority):

## CALLS FOR PROPOSALS 2024

UPDATED

### [See the virtual Infoday presentations on call for proposals 2024.](#)

The work programme is implemented through the calls for proposals for simple and multi programme, published each year, detailing the different types of funding schemes available and the procedures to follow.

- One call for proposals per year is planned for simple programmes and one for multi programmes;
- Additional calls can be published in case of serious market disturbance.

The calls for proposals 2024 were published on **January 18<sup>th</sup>**. **The closing deadline for submission of project proposals is May 14<sup>th</sup>, 2024, 17:00 CET (Brussels).**
